Overview & Financial Update
Overview: CTPF Marks 125 Years

CTPF is a well-managed Fund with diversified revenue sources necessary to fund pensions and provide financial security for its members.

Our fiscal year began July 1, 2019, and we are marking our 125th year of continuous operation.
CTPF Investment Strategy:

- Maintain a diverse mix of assets
- Accept a level of risk appropriate for a large public employee retirement system
- Invest for a lifetime
Market Volatility

- COVID-19 poses health risks but is also an economic threat.
- Markets have declined and there will likely be continued uncertainty moving forward.
- CTPF has a strong well-structured portfolio designed to weather long-term losses.
- We do not make reactionary decisions, but are disciplined investors.
CTPF Is a Long-Term Investor

Investment Return Assumption is 7.0%

CTPF Annualized Rate of Return 1985-2019

We have procedures in place to ensure the payment of member benefits, even if normal business is interrupted.

CTPF pensions are secure and are based on a formula, not market conditions.

We strongly encourage our pensioners to use direct deposit.
